

# STEM FIELD TRIP

WWII THE NATIONAL WWII MUSEUM

A science field trip to a history museum? Yes, if you want your students to focus on problem solving, critical thinking, and collaboration. Exploring the scientific and technological innovations that helped win the war, students tour the Museum with calculators and data sheets in hand. Students then put what they've learned to practical use.

**The National WWII Museum** invites your science and math students to join us for hands-on, real-world learning!

***Perfect for introducing science and math students to the design process!***

- ★ Aligned to Common Core and Next Generation Science Standards
- ★ Available for grades 6-8 and 9-12
- ★ 30 student maximum
- ★ 2 hours long
- ★ Scheduled on a first-come, first-served basis

**Book soon before  
they fill up!**
